

Oakar Services Ltd. (OSL) is the authorized distributor for Leica Geosystems Geospatial Imaging (LGGI) and Magellan GPS equipment distributor in the Eastern Africa market region with a growing client base of over 350 organizations in Kenya, Tanzania, Ethiopia, Eritrea, Rwanda, Djibouti and Burundi. OSL is also a prospective business partner of ESRI Eastern Africa Ltd.

### **Notable Achievements**

ESRI, the world's leading manufacturer in Geographic Information Systems (GIS) has recognized OSL with the following awards:

- African Excellence Award 2003;
- 2001 ESRI Distributor Special Recognition Award for overall performance ;
- High Achievement Award for Best Sales in Africa in 2000.

### **Vision and Mission**

The company's vision for the Eastern Africa region is a GIS empowered society, which uses GIS in all sectors of the economy to the benefit of decision-makers, professionals and citizens at large. The mission of the company is to offer workable and cost-effective GIS solutions for government, businesses and individuals, for the enhancement of the socio-economic development of the region.

In order to make our clients successful GIS-users our mission is:

- to provide the most suitable GIS & Remote Sensing software tools from the wide range of ESRI, and LGGI products;
- to teach the effective and efficient use of these tools by using a variety of training methods and materials, customised to the needs of the client;
- to support the growth of the GIS industry by offering a wide range of technical services and advice for the development of geographic databases and integrated GIS applications.
