FOR IMMEDIATE RELEASE

MM TELCOM PRESENTS COMPLETELY TURNKEY E-LEARNING SOLUTIONS
AT eLEARNING AFRICA 2009

MM Telcom is a leading provider of satellite communications based in the United States. Since 1991, MM Telcom has been known for bringing affordable, secure and reliable satellite infrastructure to customers, worldwide. MM Telcom is excited to present its e-learning services segment to this year's eLearning Africa event participants and guests.

MM Telcom brings its customers the benefit of the worlds' most extensive and secure satellite communications network. MM Telcom network enable its clients to meet the communications requirements of its customers' countries with ease and confidence. MM Telcom oversees installation of remote network sites and takes full responsibility for implementation, administration and performance of its clients' systems. MM Telcom furnishes all necessary labor, equipment and materials.

In keeping with its core values of responding to the needs of its clients, MM Telcom is proud to announce e-learning solutions applied across all of its operating divisions to provide a truly turnkey option to its customers. MM Telcom provides every facet from hardware and connectivity to award winning e-learning content. By offering all aspects of an e-learning solution in one package, MM Telcom makes launching an e-learning program simple, secure, quick and affordable.

By combing all of these services under one roof, MM Telcom takes advantage of economies of scale, synergies, and interoperability to guarantee that the implementation of its solutions go as smoothly and reliably as possible. MM Telcom does all of this while still providing customer service unmatched in the industry.

As always, these services are offered along with all of MM Telcom's many solutions. MM Telcom works with each of its customers on an individually tailored basis. For more information, visit the MM Telcom booth at eLearning Africa or contact its president, Michael Marom, directly.
