Laragh Skills at e-Learning Africa

Laragh Skills are pleased to announce that we will be exhibiting at E-learning Africa, Lusaka, Zambia from 26 to 28 May 2010.

Based in South Africa, Laragh Skills is the distributor for SkillSoft PLC and QuickLessons in sub-Saharan Africa. We have over 15 years experience in partnering with organizations to provide a blended learning solution that aligns with business strategy. We work directly with many of our clients in South Africa. In other countries, we work mainly through trusted resellers. We are always interested in partnering with organizations that share our commitment to providing top quality e-learning services and support.

We provide the full library of world leading SkillSoft e-learning content, covering a vast range of business and IT subject matter. We offer the excellent compendium of expert online books that is Books 24x7. We offer Knowledge Centers and an array of other quality learning resources. We also distribute the QuickLessons rapid authoring toolset for those who want to build their own e-learning. And we can bring all the learning content together for you on a learning management system that is right for your organization.

Laragh provides integrated e-learning solutions that enable enterprises to generate concrete, significant business outcomes by more effectively distributing knowledge around the extended enterprise. We plan to showcase these solutions to delegates who are seeking to partner with a solutions provider, as well as those who wish to become resellers for SkillSoft's course content.

"We are looking forward to interacting with delegates attending the E-learning Africa conference, as well as visitors to the exhibition. E-learning Africa, which attracts over 1,000 delegates annually, provides the perfect opportunity to meet with a number of people, in a short space of time", says Moira de Roche, General Manager Laragh Skills.

The conference will coincide with our official launch of SkillSoft's Leadership Advantage, which is a targeted leadership development solution leveraging multiple modes of instruction, including text, video and interactive practice activities to keep the learning quick, easy and engaging. Through a series of targeted learning tracks, the SkillSoft Leadership Advantage provides current leaders and high potentials with a collection of focused resources targeting essential leadership and management skills.

In addition to this exciting addition to the library, Laragh Skills provides blended learning solutions that include formal and informal content for IT skills, desktop computer skills, business skills and ES&H. There are also Books24X7 collections on Engineering, Finance, Wellbeing, and Hospitality. Executive Summaries are downloadable summaries of top business books, while Executive Blueprints are authored by three to five leading industry executives who have practical expertise and who are regarded as demonstrated leaders in their fields. Analyst Perspectives transforms IT analyst research into actionable business intelligence.
