- LYNX educational lesson planning software
- Unlimited users licence
- Projector (2200 lumens)
- Ceiling mounting for projector (installation kit)
- Cables kit (10mt)
- Active wall speakers
- Interactive pen

Active wall speakers

LYNX - CleverBoard's operating system

Lynx software is provided with CleverBoard for unlimited users within the school or college.

Lynx operates exactly like a Windows program and teachers can compile and edit their lessons by using the multifunctional "drag and drop" facility.

Free regular updates.

Lynx can be run in over 29 languages and our QuickMedia library features maps, colour and paper backgrounds, music sheets, number squares and much more.

ClipArt provides over 20,000 images for teachers to use in lessons and as part of bricolage exercises.

What teachers say -

"Being able to use ink markers as well as working digitally is a real benefit."

"CleverBoard is really classroom fit for purpose. It's tough, reliable and money well spent."

"Our teachers were using it confidently within hours."

"The CleverBoard Classroom Solution made installation in each classroom very straightforward. Thanks!"
